Welcome To EAMUG

The **September EAMUG meeting** was attended by 31 members, a good turnout for the 1st meeting early in the season. Q&A with the audience produced some good topics for future programs, followed by presentations of **Conquering PDF's** by Seth Eberhardt and **Quicktime Pro** by Mike Volpe.

The **September SIG** attracted 10 attendee, mostly for help with iDevices.

Join us for our next **EAMUG meeting** from 1:30-4:00 pm on Thursday, November 6 at the Elsie Quirk Library, upstairs in the Meeting Room.

The program starts with **nominations** for **2015 officers** and **signups** for the **Pizza Party**. Then a **Q&A session** with the audience, with presentations of **Backup & Recovery** by Carolyn Rosenfeld and **Photo Booth** by Carl Gaites. After the Door Prize Drawing we have lights-off by 4:00 pm.

The EAMUG **Board meeting** will be a 11:30-1:30 pm luncheon on Friday, Nov. 7 at Stephanos restaurant in Englewood. Members are welcome!

Our **SIG** will be 2:00-4:00 pm on Friday, Nov. 7 upstairs in the Elsie Quirk conference room. We will have one-on-one **help** with **iDevices** (Carl Schwartz) and **Macs** (Seth Eberhardt).

Our **Pizza Party** will be at 11:00 am (gates open) - 2:30 pm at the **Englewood Gardens Beach Club**. Please sign-up for attendance at the meeting or by email to me (eberhast@comcast.net). Also, we need volunteers to bring something (food or supplies) and/or volunteers to help with the party (set-up, serve, clean-up, etc.). See the map on page 4 for directions, and note parking is across the street from the Club.

The EAMUG **website** is up and running and will have the latest **newsletter** at www.eamug.org.

See you all at the meeting!

—Seth T Eberhardt

David Pascal is our 2014 EAMUG Librarian.

Checkout period is for one month or till the next meeting. All books will be available at the meeting. There are also *MacLife* magazines from 2012 and 2013.

The books are currently being stored in the meeting room closet and are readily accessible at meetings.

Sig

Don't Miss It!!

**Friday, November 7, 2014
2-4 PM**

**at the Elsie Quirk Library.
With Carl & Seth**

EAMUG Beach Party

Nov 2014

All of our meetings and even the S'G is "free" but as this is our Group's event you must be a member or partner of a member to attend!

Don't forget to join. Info on joining on page 3.

This event at **2560 Beach Rd.** is free to all paid up EAMUG members — guests will cost \$5; we need to know ASAP that you and whomever else will attend this fun time!! Those who attend will often look forward to bringing a dish—salad, dessert, or whatever you are famous for. I have to know that, as well, to plan.

There will be plenty of various pizzas, soda, coffee, bottled water and a lot of socializing. Bring your camera, bathing suit and whatever else you might like to have with you at this beach event. There is a hall where we will eat and socialize. We plan to eat at 12 noon, so if you are bringing any food to share, please have it there by noon, or before. There is a stove, refrigerator and microwave available.

Some people bring computer-type items for the **Tag Sale** table. (If you bring it and it doesn't get bought, you must take it home.)

We also need people to note if they will help with cleanup, too.

Parking at the Pizza Party. Please park across the street. The lot near the building is reserved for handicapped and unloading.

Security has finally become a serious issue for smartphone owners. The high-profile leaks of undressed celebrity iPhone owners, combined with a constant stream of warnings about Android bugs and malware, has left many people feeling uncertain. Even governments cannot be trusted to respect their citizen's privacy.

Apple's Tim Cook has turned this into a selling point, with his pledge that "We're not like all the others" when it comes to security. The message is clear; buy an iPhone if you want privacy. Here's how iOS 8 fulfills – or fails – that promise.

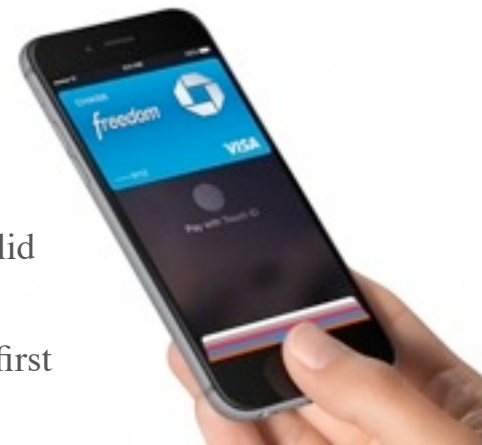

Tim Cook announced at the last Apple Keynote that, as of iOS 8, even Apple will no longer be able to get around your passcode and decrypt your device. This means anyone who has your iPhone or iPad, whether they're a thief or a police officer trying to execute a warrant, will find cracking your phone to be nearly impossible. Apple says this is a big step forward for device security, but is that true?

In a word, yes. [A passcode on an iOS device](#)

may just look like a number, but once enabled it activates encryption of your entire smartphone. The encryption key is generated by combining your device passcode with a secret system key. In the past Apple has kept its secret keys to help customers who've forgotten their code. *This announcement means Apple is no longer doing that!*

While a problem for anyone who forgets their passcode, this is a boon for everyone else including Apple who can now sincerely reply to [law enforcement requests](#) with a simple "Sorry, we can't help you."

What makes Apple Pay more secure than most is the fact your credit card information never needs to leave your device. Paying does not relay your credit card number but instead relays a unique payment ID that's valid only for that specific transaction. This is known as [tokenization](#). It's been used before by secure credit card payment systems, but Apple Pay is the first to apply the idea to paying via phone.

HELP Needed!

I have been editor for a while and like layout and learning about new stuff, but am not much of a writer. Please help by sending me something (about a new or old app or device) that you like. This newsletter may get smaller unless YOU have something to contribute!

Just send me the name and a link and a few words why you think it's great and I will finish the article.

This month Seth was the only contributor from our Group.

I still have a "old" computer so reviews of stuff available on newer systems would be greatly appreciated.

*If you are **the first** to correctly identify the city where the iCenter (on our cover) is located Carl will reward you with a stylus-pen at the meeting.*

—Carl Schwartz

EAMUG board met at Stefano's with Lou Bessen (Treasurer), David Pascal (Librarian & Webpage), Carolyn Rosenfeld (Secretary), Carl Schwartz (Newsletter), Seth T. Eberhardt (President & Programs), Carl Gaites (Publicity Director), and Mike Volpe (Sgt. @ Arms) present.

[PRESIDENT: SETH T EBERHARDT](#)
[VICE PRESIDENT: MIKE VOLPE](#)
[SOCIAL CHAIRMAN](#)
[TREASURER: LOU BESSEN](#)
[EDITOR: CARL SCHWARTZ](#)
[LIBRARIAN/WEBMASTER: DAVID PASCAL](#)

Meeting began at 11:40, suspended at 11:51 and resumed at 12:15. Lou Bessen gave the treasurer's report. We have 50 individual members, 4 family membership (8 people), for a total paid membership of 58, honorary 17 members for a total membership of 75 people. There were 31 people present at the last meeting.

Board minutes and feedback, they were accurate and accepted.

Newsletter was commented on and people enjoyed the articles. Carl was very happy that he had two contributions this month but we hope for more contributions from our membership for the newsletter.

EAMUG Website is functional, up to date and looks great.

Program

"Q and A" was very informative and many members took part.

"Conquering PDF's" by Seth Eberhardt - was very good and helpful

"Quicktime Pro" by Mike Volpe was a great presentation and got many interested in using this program.

Mark your calendars

November 13 - Pizza Party at the Beach.

Hopefully you have already emailed Seth if you are coming, but if not DO SO RIGHT NOW!

PLEASE NOTE **DATE CHANGE FOR THE BOARD MEETING AND SIG.**

Board Meeting November 7, 2014 at Stefanos.

SIG November 7, 2014 at Elsie Quirk Library

The meeting was adjourned at 1:00 PM.

Respectfully submitted,
 Secretary

—Carolyn Rosenfield
